

Freedom of Information (FOI) Request
Received: 09 September 2022

Published: www.theccc.org.uk/about/transparency

Date: 11 October 2022
Ref: Sent by email from enquiries@theccc.org.uk

Climate Change Committee
1 Victoria Street,
Westminster, London,
SW1H 0ET
w theccc.org.uk

Your request:

This is a request under FOI / EIR for the following:

From 2 March 2022 until 9 September 2022, all written correspondence (including emails), between the Committee and senior executives at Offshore Energies UK (OEUK), and / or senior executives at Weber Shandwick, EY or Deloitte.

From 2 March 2022 until 9 September 2022, details of meetings between the Committee and senior executives at Offshore Energies UK (OEUK), and / or any senior executives at Weber Shandwick, EY or Deloitte. Please include: list of attendees, including any external consultants present; agendas, meetings, briefing notes and/ or any documents circulated ahead of/presented at the meetings.

Our response:

This request has been treated under the Freedom of Information Act 2000. Please find details of meetings and correspondence between the Climate Change Committee and senior executives at OEUK, and/or Weber Shandwick, EY or Deloitte between 2nd March 2022 and 9th September in the Annex – Part A covering correspondence and Part B covering meetings.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. If you are not content with the outcome of the review, you may apply directly to the Information Commissioner for a decision. In keeping with our transparency policy, the information released to you will be published on www.theccc.org.uk. Please note that this publication will not include your personal data.

Kind regards,
Climate Change Committee

Bcc: Mike Tholen, Director of Sustainability, OEUK; [Names redacted]
Subject: Letter - Climate Change Committee and National Infrastructure Commission to the Prime Minister

Good afternoon,

Please find here a link to a letter jointly written by the Climate Change Committee and National Infrastructure Commission to the Prime Minister, Rt Hon Elizabeth Truss MP.

The letter sets out our joint positions on topics including energy security, fossil fuels and the role of infrastructure in delivering Net Zero.

The CCC and NIC recommend that the Government:

- Develops credible policies for energy efficiency in buildings. Investing in efficiency now will provide meaningful reductions in the amount of energy wasted over the long-term and support the necessary transition to low-carbon heat.
- Provides and promotes a comprehensive energy advice service.
- Delivers a working market-based mechanism for low-carbon heat. This is the main policy the Government has put in train to deliver on its goal to grow the market for heat pumps.
- Makes full use of new auctions for onshore wind and solar. Renewables are the cheapest form of electricity generation.
- Delivers updated National Policy Statements for energy and acts quickly to resolve barriers to deployment of strategic energy infrastructure.

Best wishes,

Hi Deirdre,

I'm sorry for the slow reply – a combination of annual leave and a work trip to the north of England to see a few sites for Hydrogen production and use.

I would very much like to do the dinner on the 13th. At the moment I have a few things in my diary – but [Name redacted] might be able to rearrange things. I'm due to be in Scotland that week.

If we can't make that week work, I would like to find an alternative way to meet the Board.

Is there someone at OEUK that [Name redacted] can liaise with?

Subject: Invitation to speak with OEUK Board

Dear Chris

Congratulations on another landmark and significant progress report last week. Good to see some progress while appreciating the big gaps out there.

I was wondering if you would be able to come and speak with the OEUK Board at some point? Having them hear directly from you as well as being able to discuss some of their issues, would be powerful and helpful.

Is this something you might consider please? We have our Board awayday dinner in Aberdeen on the evening of the 13th September and then a full board working day on the 14th. If the dinner might work for you – that would be excellent, but if not and you would be up for speaking with them, we could see what else might work for your diary?

Many thanks and kind regards,

Deirdre

Subject: OEUK : Deirdre Michie

Sent on behalf of Deirdre Michie, CEO of OEUK

Dear Chris,
By the end of 2022, I will have been in post as CEO of OEUK for almost 8 years. It's been a real privilege to work with you while championing the sector through what have been some incredibly challenging and testing times.

I think that in working together so collaboratively, we have moved the industry on in a constructive and positive way. As a result, we have helped to

sustain it and position it well to play its part in the success of the UK's economy and society and the challenges of security of supply, affordability and climate change.

However, given the length of time I have been in the role and where the organisation has evolved to it's important that I hand over the baton to someone who can continue to take the organisation forward through its next phase, which will require a multi-year commitment.

It is therefore my intention to step down at the end of 2022, to ensure a smooth and seamless transition, while remaining fully focused on delivering the day job and its ongoing challenges for the rest of the year.

I hope I will meet with most of you during the coming months, so that I can personally thank you for all your support during my time at OEUK.

It has been and continues to be an extraordinary role and a great honour to represent this industry to the best of my ability.

Anyone in my position is only as good as their team and it is to my OEUK colleagues that I pay particular thanks for everything that they have done in supporting me and working with you, and in consistently and proudly helping to drive positive change while representing the sector so well.

The recruitment process for my replacement will start immediately, with recruitment consultants being appointed so that we can ensure the next CEO is in place by year end.

Kind regards.

Subject: Climate Change Committee 2022 Progress Report to Parliament - strictly embargoed until 00:01 Wednesday 29th June

Good afternoon,

I am writing to provide you with the Climate Change Committee's 2022 Progress Report to Parliament.

This year's report includes a new monitoring framework for tracking progress towards Net Zero. As with last year, recommendations are provided department-by-department for the UK Government as well as to each of the Devolved Administrations.

We would welcome reactive comments from you.

Please note that this report and accompanying press release are strictly embargoed until 00:01 on Wednesday 29th June 2022. We therefore respectfully ask that you only share these documents with key internal contacts ahead of then.

The report and press release are available to access and download through the below password protected link:

Link:

<https://climatechangecommittee1.box.com/s/ckn0y43zl9blapc9mk17gwja5flxfzzy>

Password: Pr0gr£ss

We once again stress that the documents in that folder are strictly embargoed until 00:01 Wednesday 29th June 2022. Please do not share until then.

Subject: Preparing for the 27th September

Hello Chris

Hope you are well and enjoying the summer. I was in Greenock at the weekend for a memorial service and it was much cooler than the South.

We are pleased with the responses to our invitation for the 27th September which I think is testament to the commitment and concern around what needs to be done in the built environment. I was wanting to suggest that I invite you to meet with at least [Name redacted] and I in advance of the 27th. With that in mind I was wondering if you might be free on either the 6th or 20th September to meet. [Name redacted] and I sometimes meet in [Location redacted] for breakfast and if that worked for your diary we could do that, otherwise a physical or virtual meeting would suffice.

Let me know what would work for you.

Subject: Financing Adaptation Research

Dear all,

The CCC has commissioned Frontier Economics and Paul Watkiss Associates to carry out a research project on 'Barriers to Financing Adaptation Actions in the UK'. The project will include a literature review and a small number of case studies (covering private sector and public sector organisations) to document examples of financing adaptation and better understand the barriers. This evidence base will be used to develop recommendations and inform a larger CCC report on financing adaptation.

The project is working to tight timescales and so we are writing now to request suggestions for:

Are there any particular papers, studies or other existing evidence (for example, experts/practitioners that they should speak to) that you think they should include in their review?

Are there any particular potential case studies or examples of financing adaptation that you think they should investigate?

If you have any suggestions, please could you let me know by close of play Friday 18th March, and if you have any questions about the research project or report, please let me know.

Thank you and best wishes,

Subject: RE:UK Circularity Gap Report - UKCCC input?

Dear Chris,

Thank you again for your engagement earlier in the year RE: Carbon Markets.

Another area of thought leadership that we are focusing on is the UK Circularity Gap Report commissioned by Circle Economy (we are also working on several other jurisdictions). Work is underway, and I wanted to get in touch with you as the team sets to convene an expert committee. It would be fantastic to engage with the UKCCC on this, and explore how you or a member of the team might want to participate.

If this is something that you would be happy to discuss – please let me know.

The report aims to:

Provide an clear picture of the circular economy landscape in the UK while proposing potential future pathways for the government officials and businesses in the UK.

The proposed outputs will provide a deeper understanding of the resource reality of the UK - focusing on extraction, processing, production, consumption and end-of-use management.

In addition, are you heading to NY Climate Action Week? We are hosting a roundtable for the Climate Champions at our NY office on 21st September titled "How Private Sectors can work together with cities to build resilience",

with Mahmoud opening the discussion. Please do let me know if you would like to join.

Best,

Hi Chris,

Many thanks again for joining us at the Academy event on Tuesday. As mentioned, the engaging discussion was very well received! Our brand team have been in touch as they are keen to repurpose your contributions to the session for a climate series they run. The series aims to share articles structured as 'five key lessons' from leaders in the climate space, with this one set to focus on navigating carbon markets. Is this something you would be interested in?

We carried out a similar exercise following our Academy event with Nigel a few weeks ago – see below:

COP26: Five key lessons from Nigel Topping | Deloitte UK

No pressure, but if you are interested the team will follow-up with a draft based on the discussion from Tuesday.

Please let me know if so, and the team will be in touch.

Best,

Siobhan

Subject: RE: Introductions - carbon markets

Dear Chris,

Great to meet you on 7th February in the introductory call to IC-VCM.

Separately, I wanted to reach out regarding an opportunity to speak on Tuesday 8th March 08:30-10:00 at a webinar on the carbon markets.

Deloitte, in collaboration with Chapter Zero, host regular discussions and briefings for Board Directors and senior executives on Climate and ESG as part of our Deloitte Academy Board programme. The aim of this series is to

equip board directors with knowledge of climate impact and to provide practical guidance to help boards and their stakeholders assess the impact on their organisation and plan for the risks and opportunities arising. The Deloitte Academy is a highly regarded programme of insight, learning and debate for board directors and senior executives of major UK companies.

Recent speakers have included Mark Carney, Professor Partha Dasgupta, Howard Covington, Dr Emily Shuckburgh and Prof Diane Coyle along with Board members from businesses such as Tesco, AstraZeneca and IAG. The members of our board programme are senior business leaders from UK & global organisations.

I'm aware of your Chapter Zero webinar from early last year RE: 6th Carbon Budget and the role of UK business in the net zero transition. Given your active call for evidence on Carbon Offsets, would you be willing to speak at our March webinar?

If you are available and happy to contribute, please let me know and I will schedule a call to discuss this further. I would like to introduce my colleague Diane Slater who leads the Academy and who would join the call.

I look forward to hearing from you.

Best,
Siobhan

I am currently on secondment to the Integrity Council for Voluntary Carbon Markets (IC-VCM). Please be patient for a reply.

Part B: Meetings

Part B)i) OEUK

Chris Stark discussion with board of Offshore Energies UK

13 September 2022 18:00

Aberdeen

This meeting is outside of the dates requested in the Freedom of Information request. However, a readout has been included below in the interest of transparency.

Readout of discussion, written by Chris Stark 14/9:

I talked to them about four issues:

- the state of the climate - and the unequivocal influence of fossil fuel emissions on recent climate change
- the declining role of oil and gas in the net zero transition - and the CCC letter on the climate compatibility checkpoint for new oil and gas production (Feb 22)

- the change in conditions over the last 12 months - changes in UK politics and policy; the European energy price crisis
- Advice to the oil and gas sector - increasing proportion of Oil and Gas capex on clean energy (presently 5%); the urgent need to increase the ambition of the North Sea transition deal on production emissions; leaning into the clean energy transition as it accelerates across Europe following the Putin-led gas supply constraints

No accompanying slides were presented or shared for this meeting.

Attended by: OEUK board members. A record of names is not held by the CCC.

Mike Tholen : Chris Stark

9 September 2022 14:30-15:00

Online

A briefing call in advance of Chris Stark speaking at an OEUK dinner on 13 September

LSE Adaptation Panel

15 June 2022 16:45-17:45

Online

An online panel discussion set up and chaired by Swenja Surminski of the CCC Adaptation Committee, involving Vanessa Otto-Mentz, Partner at Deloitte. Invite copied below:

From: Swenja Surminski, CCC Adaptation Committee member

Sent: 9 June 2022 05:41

To: Rosalyn Schofield, former CCC Adaptation Committee member; Vanessa Otto-Mentz, Partner, Deloitte; [Name redacted]

Subject: LSE Adaptation Panel

Dear Rosalyn, Vanessa and [Name redacted]

many thanks for agreeing to join the LSE Adaptation Panel on Wednesday, 15/06.

Below the Zoom Link.

The Panel will run 4:45pm - 5:45pm UK time. Audience will be a mix of private sector and civil society who are completing an executive education summer school on climate change at LSE. I will moderate and start with inviting you to introduce yourselves and to say a few words about your work on climate adaptation, or any personal adaptation experiences you want to share. Will

then run this as a conversation: what is important when trying to adapt, barriers, challenges, success stories etc. followed by Q&A from the audience.

Looking forward to it!
Best wishes
Swenja
